### AMENDMENTS TO THE SPECIFICATION

Please replace the paragraph at page 5, lines 24-25 of the specification, with the following amended paragraph

Figure 10 is a box plot showing statistical values calculated from single cell clone SEAP expressors. Upper and lower box boundaries indicate the 25<sup>th</sup> and 75<sup>th</sup> percentiles, respectively. Lines within boxes mark the median and dashed lines show the mean. Whiskers above and below boxes indicate the 10<sup>th</sup> and 90<sup>th</sup> percentiles. Outlying data points are indicated by filled ovals. Statistics were calculated from 140, 132, 144, and 128 data points, respectively.
